

Call for Book Chapters

Title of the book | **Geospatial Intelligence for Climate Change and Geohazards: Towards Disaster-Resilient Landscape**

Important Dates

Abstract submission deadline:

August 31st 2026

Full paper submission deadline:

October 31th 2026

Editorial Team :

Dr. Sk. Mustak

Assistant Professor, School of Environment and Earth Sciences, Department of Geography, Central University of Punjab, Bathinda-151401, India

Prof. Biswajeet Pradhan

Professor, Centre for Advanced Modelling and GIS, School of Civil and Environmental Engineering, Faculty of Engineering & IT, University of Technology, Sydney (UTS), Broadway, NSW, 2007, Australia

Prof. Monika Kuffer

Professor, Behavioural, Management and Social Sciences (BMS) & Faculty of Geo-Information Science and Earth Observation, University of Twente, Enschede, 7522, Netherland

Pritam Mitra

Ph.D. Scholar, Department of Geography, Central University of Punjab, Bathinda-151401, India & Visiting researcher, Section of Earth and Environment Science, University of Geneva, Switzerland

Book series:

AI for Earth

Advances in Geosciences and Environmental Sciences

Springer

Chapter formation:

A. Sections of the Chapter :

1. Title
2. Author(s) Name & Current Affiliation with E-mail and ORCID ID
3. Abstract (200 words)
4. Keywords (5-6 words)
5. Introduction
6. Rationale of the Study (Optional)
7. Materials and Methods
8. Results and Discussion
9. Challenges/Limitations of the Study (Optional)
10. Recommendations
11. Conclusions
12. Acknowledgments (If any)
13. References (Springer Format)

B.) Each article may be about 20-35 pages with roughly 6000-9000 words

Benefits:

- Zero (Nil) Publication Fees
- Each corresponding author receives one complimentary e-Copy
- Worldwide circulation through Springer website

Submission email: springernature2022@gmail.com

Geospatial Intelligence for Climate Change and Geohazards: Towards Disaster-Resilient Landscape

KEY THEMES

SECTION I: ADVANCED GEOSPATIAL INTELLIGENCE - FOUNDATIONS AND REVIEW

- 1 Remote Sensing Technologies for Hazard Monitoring and Disaster Risk Assessment
- 2 GIS, Spatial Data Infrastructure, and Multi-Hazard Data Integration
- 3 Machine Learning, Deep Learning, and Explainable AI In Geospatial Analysis
- 4 Traditional and Advanced Geospatial Approaches for Hazard Research
- 5 Global Trends and Emerging Perspectives in Climate and Geohazard Studies

SECTION II: AI-DRIVEN GEOSPATIAL INTELLIGENCE FOR CLIMATE-CHANGE-INDUCED HAZARDS

- 6 Flood Risk Assessment and Climate Change Impact Modeling
- 7 Sea-Level Rise, Coastal Inundation, and Vulnerability Assessment
- 8 Drought Monitoring and Agricultural Stress under Future Climate Scenarios
- 9 Heatwaves, Urban Thermal Stress, and Climate Resilience Planning
- 10 Integrated Multi-Hazard Projection under Climate Change Scenarios

SECTION III: URBAN RISK MAPPING WITH GEOSPATIAL INTELLIGENCE

- 11 Urban Flood Risk Analysis and Stormwater Management Strategies
- 12 Land Subsidence Monitoring and Infrastructure Vulnerability Assessment
- 13 Urban Heat Island Mapping and Thermal Environment Assessment
- 14 Air Pollution Monitoring and Environmental Risk Assessment in Cities
- 15 Forest Fire Detection and Vegetation Stress Monitoring Using Geospatial Intelligence

SECTION IV: TERRAIN AND LANDSLIDE HAZARD ASSESSMENT THROUGH ADVANCED GEOSPATIAL INTELLIGENCE

- 16 Landslide risk Mapping Using AI and Geospatial Technologies
- 17 Debris Flow, Soil Erosion, and Terrain Hazard Assessment
- 18 Terrain-Based Infrastructure Risk Assessment and Resilience Planning
- 19 Integrated Assessment of Landslide, Flood, and Terrain Hazards
- 20 AI-Driven Terrain Hazard Modeling and Mitigation Planning

SECTION V: ADVANCED GEOSPATIAL INTELLIGENCE FOR ENVIRONMENTAL HAZARDS

- 21 Soil Degradation Assessment and Land-Use Change Impacts
- 22 Glacier Retreat, Snow Hazards, and Mountain Risk Assessment
- 23 Coastal and Estuarine Erosion Hazard Assessment and Management
- 24 Cyclones, Storm Surges, and Extreme Weather Hazard Modeling
- 25 Integrated Environmental Hazard Assessment and Climate Resilience Planning
